

Degrees of Lewdity Installation Guide iOS 11+

Disclaimer: Modifications to the game, or use of third-party sites are unsupported.

Please download and extract the game here: <https://vrelnir.blogspot.com>

Note: This is the official website for Degrees of Lewdity. Use it to check and download the most recent build.

It should be noted that the game cannot be “installed” in the typical fashion of what would be installing an app from the Apple App Store - it will instead be extracted.

Although there may be other ways to run Degrees of Lewdity, this is the best method that avoids stutters and bugs throughout usage

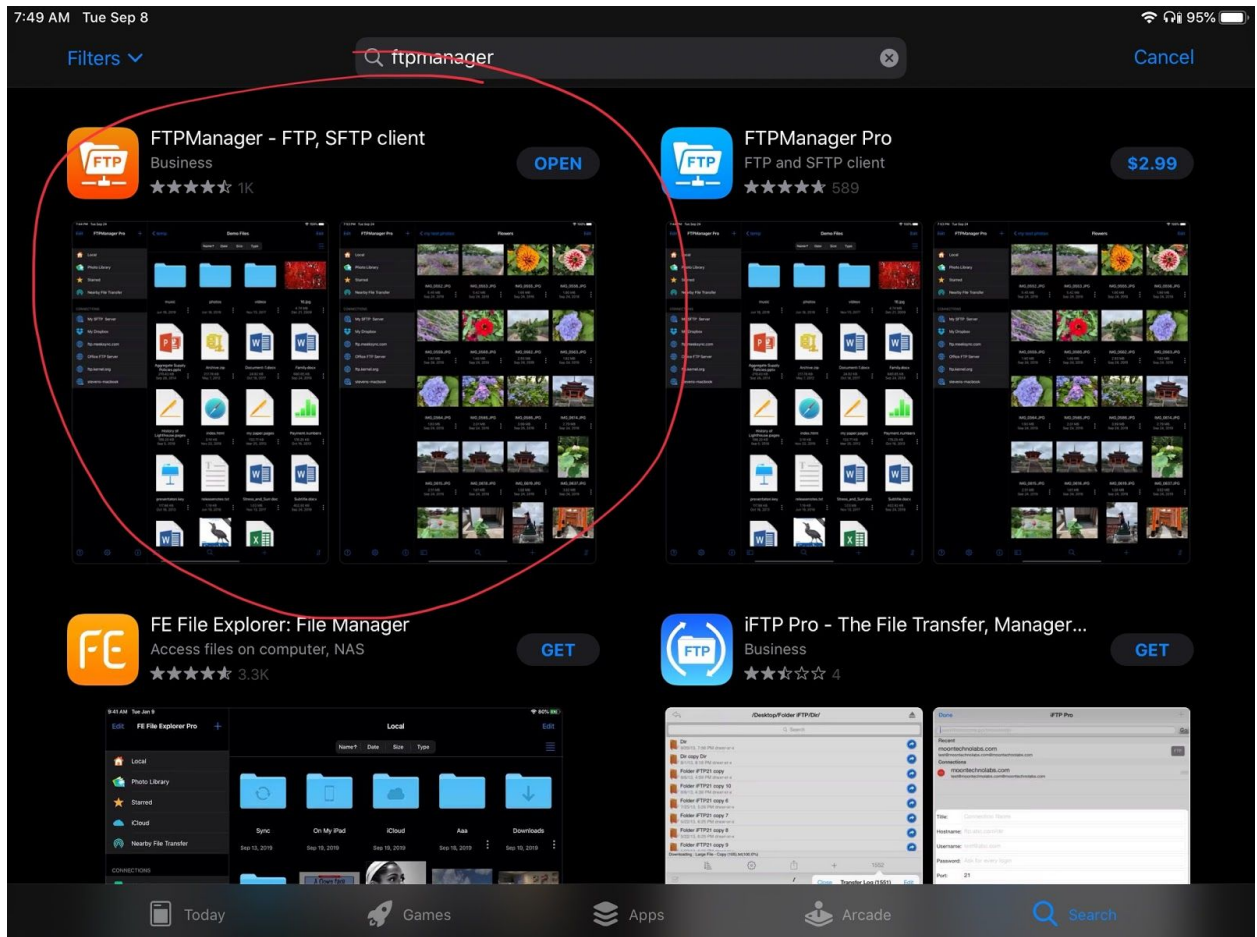

Game Description

"Degrees of Lewdity is an erotic game. You play an 18-year-old boy or girl in a town full of people with lewd intentions. Go to school and find honest work, turn to a life of crime, or sell your body in more carnal ways."

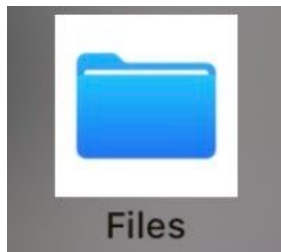

"The game has strong sexual themes, and lots of sex in general. You can choose the gender of the people who'll be attracted to you, and fetishes such as tentacles can be toggled off in settings."

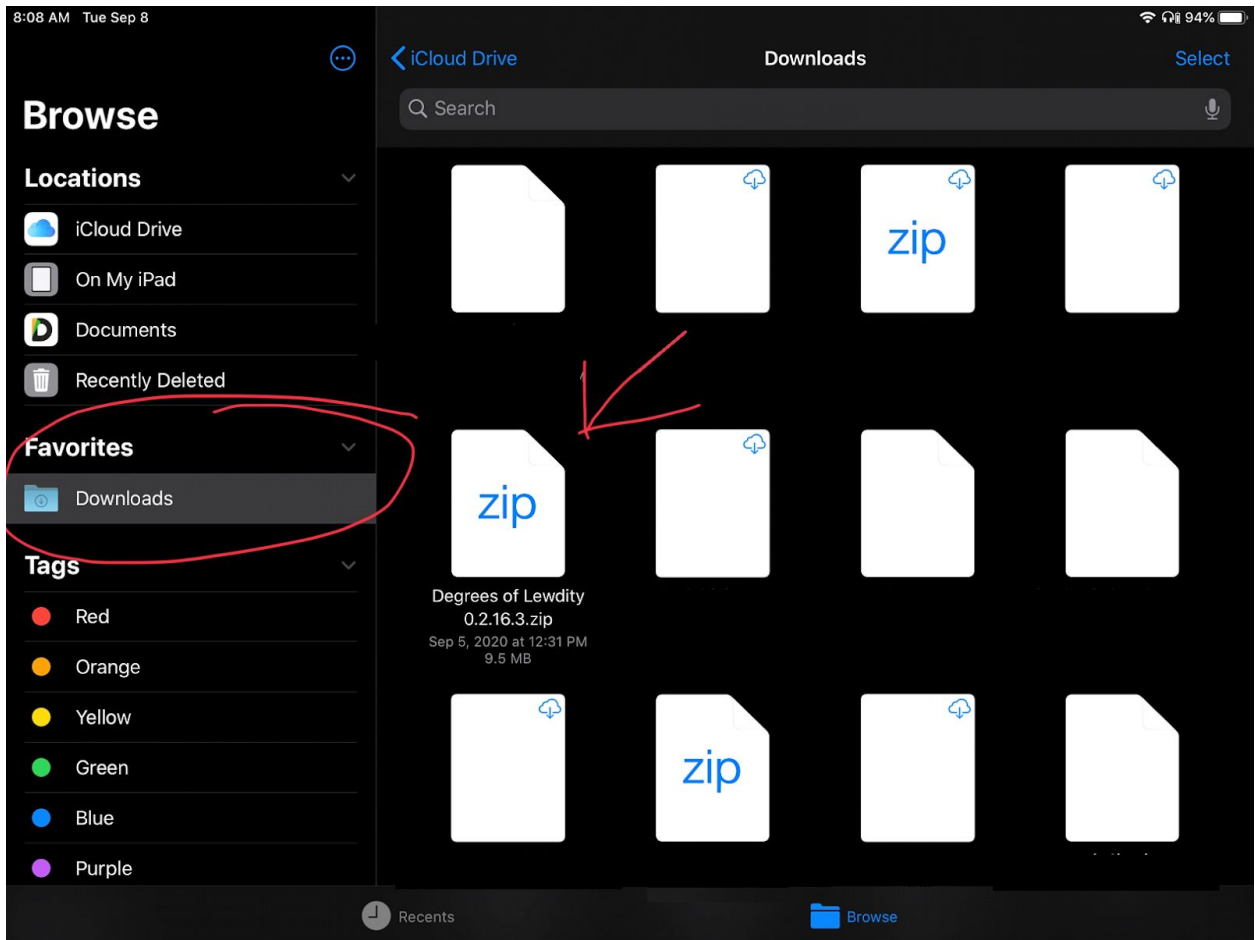

Installation

1. Go to the App Store and search “ftpmanger”
2. Tap “GET” and put in your password or Touch ID to install FTPManager this will be where you run Degrees of Lewdity.
